Verse 1
G
                                С
                                         Cmaj7
I was scared but I couldn't admit it
G
                                Cmaj7
                            С
Hatred planted out of fear
G
                                           Cmaj7
                                    С
Fight or flight no choice but to hit it
                                        Cmaj7
Em
             G
                                    С
The road, it calls on me my dear
Verse 2
G
                          С
                              Cmaj7
I was lost as lost can be
                                 Cmaj7
                            С
G
Being praised for being found
                                    С
                                         Cmaj7
G
But all that praise got lost on me
Em
                                        Cmaj7
                                    С
as the mood swing was headed down
<u>Chorus</u>
Em
          G
               a-b-C
Part from me
            D7
I would not dare take someone
                              С
                                   D7
Em
               G
<u>in love with me where I'm going</u>
                  a-b-C
Em
              G
<u>Apart you'll see</u>
             D7
                              Em
how true it is and how back then
           G
                   С
                                 D7
it possibly was impossible for you or me to know it

Verse 3
G
                         С
                               Cmaj7
Your touch was nothing more
                                    Cmaj7
G
                                С
than a child's goodbye and hello
                       C Cmaj7
G
But it always left me feeling
Em
                                Cmaj7
                            С
           G
worse when it was time to go
```
