I had a moment, when I thought I might be wrong
  G B7 C
but Ashley how could it be
               B7
I waited on the rooftop, all night long
   G B7

And now I'm sitting here like a mixed up little kid
You said you wanted me but you never did
G B7
There was a moment when I thought our love was strong
but now that moment is gone
Verse 2
                   B7
I could stand right underneath the window of your room
throwing rocks I've done it before
And I would love to find a reason to dazzle you with lies
                   B7

And you never promise anything you didn't give
I assumed that you'd say yes but you never did

There was a moment my love for you was strong
       С
but now that moment is gone
Now that moment is gone
